## *It's time for* Spring Cleanings

We are very lucky to have two excellent dental hygienists at Green Hills Dentistry. They are committed to the health of our patients, and endeavor to bring you the best that dentistry has to offer. You know Mary and Keshua from their years of caring for you, but we thought you might like to know a little more about them.

### Mary

Mary has been with our practice for almost 30 years! Her patients are very loyal, and with good reason. Mary is a dedicated professional who is committed to helping her patients stay healthy. When she is not in the office, Mary and her husband Rich enjoy being outdoors hiking, cycling, and working in the garden. If you want to see Mary light

up, just ask her about her rhododendrons! Mary is an excellent cook, and her greatest joy is feeding her boys, Ben and Aaron, when they come home to visit.

Mary loves her work and continues to enjoy the relationships she has built with her patients over the years.

### Keshua (key-sha)

Keshua has been a dental hygienist with us since 2007. Our patients love her bubbly personality and her gentle but thorough clinical skills. Keshua is exceptionally good with children, and she has a unique ability to make the kids in our practice feel completely at home.

Keshua and her husband Jason are die hard

Penn State football fans. She spends most of her "free" time caring for her two young boys, Luke and Adin, and staying healthy with organic recipes and exercise.

Keshua enjoys staying on the cutting edge of technology in order to enhance your experience, and to further our pursuit of perfection in dentistry.

# Our amazing Hibiscus Tree!

You've seen it bloom, well it is still blooming! In fact, it has bloomed all winter long.

## Our new Cerec Omnicam

We are constantly evaluating new and proven technologies in order to offer the best possible experience to our patients. One of the more remarkable advances in dentistry is the marriage of 3D optical scanning with the CAD/CAM fabrication of dental restorations. We have been using the Cerec imaging and milling technology for almost two years, and we have all been thrilled with the beautiful restorations we are able to deliver in just ONE VISIT. Now, the best of dentistry has gotten even better.

Introducing our new **Cerec Omnicam**. This upgraded digital 3D camera is about half

the size of the original, and no longer requires the messy blue powder spray before imaging. While the old camera took 3 or 4 pictures which it stitched together, the Omnicam takes 19 images per second! This video feed is used to produce 3 dimensional virtual models for us to use when designing your restorations.

Another upgrade is our ability to now fabricate bridges and implant abutments as

well as crowns, inlays and onlays! This is a significant advance in the state of the art of technology that will let us complete implant restorations a full month faster! Dr. Forgosh continues to actively pursue advanced education in all aspects of the new Cerec Omnicam so you can realize the full potential of this incredible piece of equipment.

## Making great dentistry affordable

Our patients understand that good dentistry can be expensive, but poor dental care has a much higher cost. We never want our fees to keep you from getting the care you deserve, so we offer two different interest free payment plans to make it easier to choose the treatment that's right for you.

**#1 - DentalBanc** - Services can be financed over 3, 6, or 12 months interest free. Payments are simply automated through electronic fund transfers from your bank account to our account on a monthly basis for the terms you have chosen. Since there is no finance company involved, there is no effect on your credit history with DentalBanc. We find this to be the easiest, and best way to make excellent care more affordable.

**#2 CareCredit** functions much like a credit card. It is a revolving line of credit that you can use to pay for dental (and veterinary) care. Like a credit card, your credit limit is determined by the financing company (GE Capital), based on your credit history. Balances on the card are interest free for a period for either 6 or 12 months, depending on the amount financed, and must be paid in full by the end of the interest free period.

Don't hesitate to ask Sharon for more information on these two options.

## Summer Vacation Hours

Our office will be closed from **Friday, August 1** through **Sunday August 10, 2014**.

Our office will return to our regular schedule on **Monday, August 11, 2014**.

As always, Dr. Forgosh can be reached for dental emergencies by calling the emergency phone number found on our office answering machine.

To connect with us, call 610-395-0980, go to our website [www.ghdentistry.com](http://www.ghdentistry.com) or Like Us on Facebook!
